

Assistive Technology State Grant Program General Information

Assistive Technology Grant Type: The Assistive Technology (AT) State Grant Program (84.224A) supports consumer-driven state projects to improve access to assistive technology devices and services. Its goal is to eliminate programmatic, policy-based and other barriers that preclude or prevent persons with disabilities from acquiring the assistive technology devices and services they need.

The Technical Assistance (TA) Program (84.224B) provides technical assistance, through grants, contracts or cooperative agreements on a competitive basis, to individuals, service providers, states, protection and advocacy entities and others. In FY 2006, \$1,052,370 was provided for 3 awards. Two of these were continuations, and one was a new award. In FY 2007, all 84.22B awards will be continuations.

Assistive Technology Eligibility: For AT state grants: The governor designates a lead agency in each state to develop, administer and monitor projects.

For TA: state agencies and other public or nonprofit agencies and organizations may apply.

Assistive Technology Grant Application Process: If you choose to submit your application electronically, use the e-Application available through the Department's e-Grants system accessible through the e-Grants portal page at: <http://e-grants.ed.gov>.
